B"H

**Jewish Population**

How many Jews are there in the world? Jewish federations and organisations pay a lot of money to get statistics and numbers of Yidden. We can tell you about famous and influential people that are Jewish but we are always astonished to hear how much of a minority we are in the world.

From the beginning of the Jewish nation, the Torah has been involved in counting the population. When counting something we can look at it in a few ways. One way is to evaluate the amount to see how many there are. The second way is to make sure that none are missing. When each individual has infinite value, we do not care about the amount, but rather we want to make sure that no one has gone missing.

G-d cares about each and every person. Make sure you do not get lost, you count.

Warm regards,

Rabbi Shalom White
