B"H

**Have you had your flu injection?**

This time of year we all get a little bit of the sniffles and a bit of a cough. Did you know that until Jacob, people would simply pass away with the slightest sickness. Hashem blessed us that we could (get sick, and of course the ability to) get better. This is an amazing ability that the human possesses, healing. Eventhough the body is ill, deteriorating and not 100% we have an immune system that can fight and bring us back to full health.

We take this for granted but this is a gift from above which has become part of our natural system.

The lesson that we learn from this is that when we find our general situation not the way it should be, we tend to think that only a miracle can fix it. The truth is that innate inside of our nature is integrity, courage and persistence which with these we can return a situation back to normal.

A Refua Shlema to all.

Warm regards,

Rabbi Shalom White
